*Cross-Cultural Study of Leadership in Public Relations and Communication Management. Results of a survey in Germany, Austria and Switzerland.*

Leipzig, Münster: Universität Leipzig, Westfälische Wilhelms-Universität Münster, 2012

With special thanks to Katharina Simon, B. Sc., for project management, administering the global online survey and statistical analyses. The questionnaire used in this study has been jointly developed by an international research group headed by Bruce Berger, University of Alabama, and Juan Meng, University of Georgia.

The use of the charts and data from this report in own presentations and publications is permitted when quoting the source "© Universität Leipzig / Universität Münster, [www.leadership-survey.net](http://www.leadership-survey.net)" with every figure and reference.

Digital distribution and publication of this report by third parties is prohibited. This document is available at [www.slideshare.net/communicationmanagement](http://www.slideshare.net/communicationmanagement).

About this study

# Cross-Cultural Study of Leadership in Public Relations and Communication Management

## Key facts

- Survey among communication professionals and PR managers in corporations, nonprofit organizations (including governmental, political, educational) and agencies
- The study is part of a global research project with quantitative and qualitative methods in 8 cultural regions and 23 countries: Anglo Countries (United States, United Kingdom), Germanic Europe (Germany, Austria, Switzerland), Eastern Europe (Russia, Estonia, Latvia), Latin Europe (Spain), Latin America (Brazil, Chile, Mexico), Confucian Asia (China, Hong Kong, Taiwan, South Korea, Singapore), Southern Asia (India), and Middle East (United Arab Emirates, Qatar, Lebanon, Jordan, Egypt)
- This report includes quantitative results from Germany, Austria and Switzerland (DACH region) and is based on a sample of 1,766 completed questionnaires
- Partners and sponsors: Plank Center for Leadership in Public Relations at the University of Alabama, AL; Heyman Associates, New York, NY; IBM, Armonk, NY; Academic Society for Corporate Management and Communication, Germany. Distribution partner: Convento, Neuss, Germany.

## Focus and research questions

- Important issues for leaders in public relations and communication management
- Conditions for leadership, leadership abilities and qualities
- Strategies and actions implemented by leaders to deal with important issues
- Development of future leaders
- Personal beliefs and perceptions about leadership

## Background and rationale

Our world is characterized by rapid and dynamic changes, including globalization, the rise of powerful social media, newly empowered stakeholders and groups, a 24/7 news cycle and diverse economic, political and social challenges. In such a dynamic environment, organizations need professional communication leaders who provide a vision, build and manage professional work teams, foster employees' commitment, and contribute to aligning communication to organizational goals.

The Cross-cultural Study of Leadership in Public Relations and Communication Management explores major challenges that leaders in this field face, strategies implemented to deal with these issues, prerequisites and characteristics of excellent communication leaders, as well as leaders' and followers' personal beliefs and perceptions about leadership in public relations and communication management.

The terms *communication management* and *public relations* mean the same thing in this study. The term *leader* is used to refer to an individual who is responsible for organizing and leading a communication group, unit or entire function to help an organization achieve its objectives.

The findings will help build leadership theory in public relations and communication management, bear implications for communication practice, and help inform the education and development of future leaders in the field. Thus, the overall project and the quantitative results for Germany, Austria and Switzerland presented in this report expand our understanding of communication leadership globally – to truly break ground in this important area.

Methodology and demographics

# Methodology

## Method and sampling

- Online survey from November 28, 2011 – January 3, 2012 (5 weeks)
- Questionnaire in German language with 6 sections, based on theory building and previous empirical research in the United States
- Pre-test with 12 communication practitioners
- Personal invitation to 21,400 professionals based in Austria, Germany and Switzerland via e-mail, based on a database provided by Convento, a leading provider of management software for corporate and financial communications in German speaking countries
- Evaluation is based on 1,766 fully completed questionnaires

## Statistical analysis

- Methods of empirical research, descriptive and analytical analysis (using SPSS)
- Results have been statistically agreed by Pearson's chi-square tests ( $\chi^2$ ) and are classified as significant ( $p \leq 0.05$ ) where appropriate
- In this report, significant correlations are marked in the footnotes

# Demographic background of participants

| Age                |       |
|--------------------|-------|
| Less than 36 years | 19.4% |
| 36 – 45 years      | 37.3% |
| 46 – 55 years      | 32.8% |
| More than 55 years | 10.4% |

| Gender |       |
|--------|-------|
| Male   | 52.8% |
| Female | 47.2% |

## Educational background of participants

| <b>Highest level of education</b>                   |       |
|---|-------|
| Doctoral degree                                     | 11.3% |
| Master's degree (or Magister, Diploma / University) | 65.4% |
| Bachelor's degree (or Diploma / FH)                 | 11.4% |
| High school degree or equivalent (Abitur, Matura)   | 8.2%  |
| Other   | 3.7%  |

| <b>Major area of study</b>  |       |
|---|-------|
| Humanities (history, linguistics, literature, philosophy, speech, etc.)               | 25.5% |
| Communication and media studies, journalism   | 18.9% |
| Public relations, communication management, strategic communication                   | 8.0%  |
| Social sciences (anthropology, political studies, psychology)                         | 11.0% |
| Business administration, general business, management, advertising or marketing       | 20.8% |
| Mathematics or natural sciences (biology, chemistry, physics, etc.), computer science | 5.3%  |
| Other   | 10.4% |

# Organizational background of participants

| Type of organization  |       |
|---|-------|
| Publicly held corporation (stock ownership)                                 | 19.1% |
| Private or state-owned company  | 34.0% |
| Nonprofit organization, governmental, educational or political organization | 23.4% |
| Communication or public relations agency                                    | 20.0% |
| Self-employed   | 6.5%  |

| Position   |       |
|--|-------|
| Top leader in public relations                             | 48.4% |
| 1 level below highest ranked communication leader          | 39.2% |
| 2 levels below highest ranked communication leader         | 9.5%  |
| 3 or more levels below highest ranked communication leader | 2.9%  |

| Size of communication unit |       |
|----------------------------|-------|
| More than 25 professionals | 12.3% |
| 16 - 25 professionals      | 8.3%  |
| 5 - 15 professionals       | 40.2% |
| Fewer than 5 professionals | 39.2% |

Leadership Survey 2012 / n = 1,766 PR professionals from Germany, Austria and Switzerland. Type of organization: n = 1,822, because multiple answers were allowed. Throughout the survey, data from different respondents has only been used for evaluation and interpretation when appropriate, i.e. responses from agencies are not taken into account for leadership processes in communication departments, self-employed respondents are only relevant for identifying general issues etc.

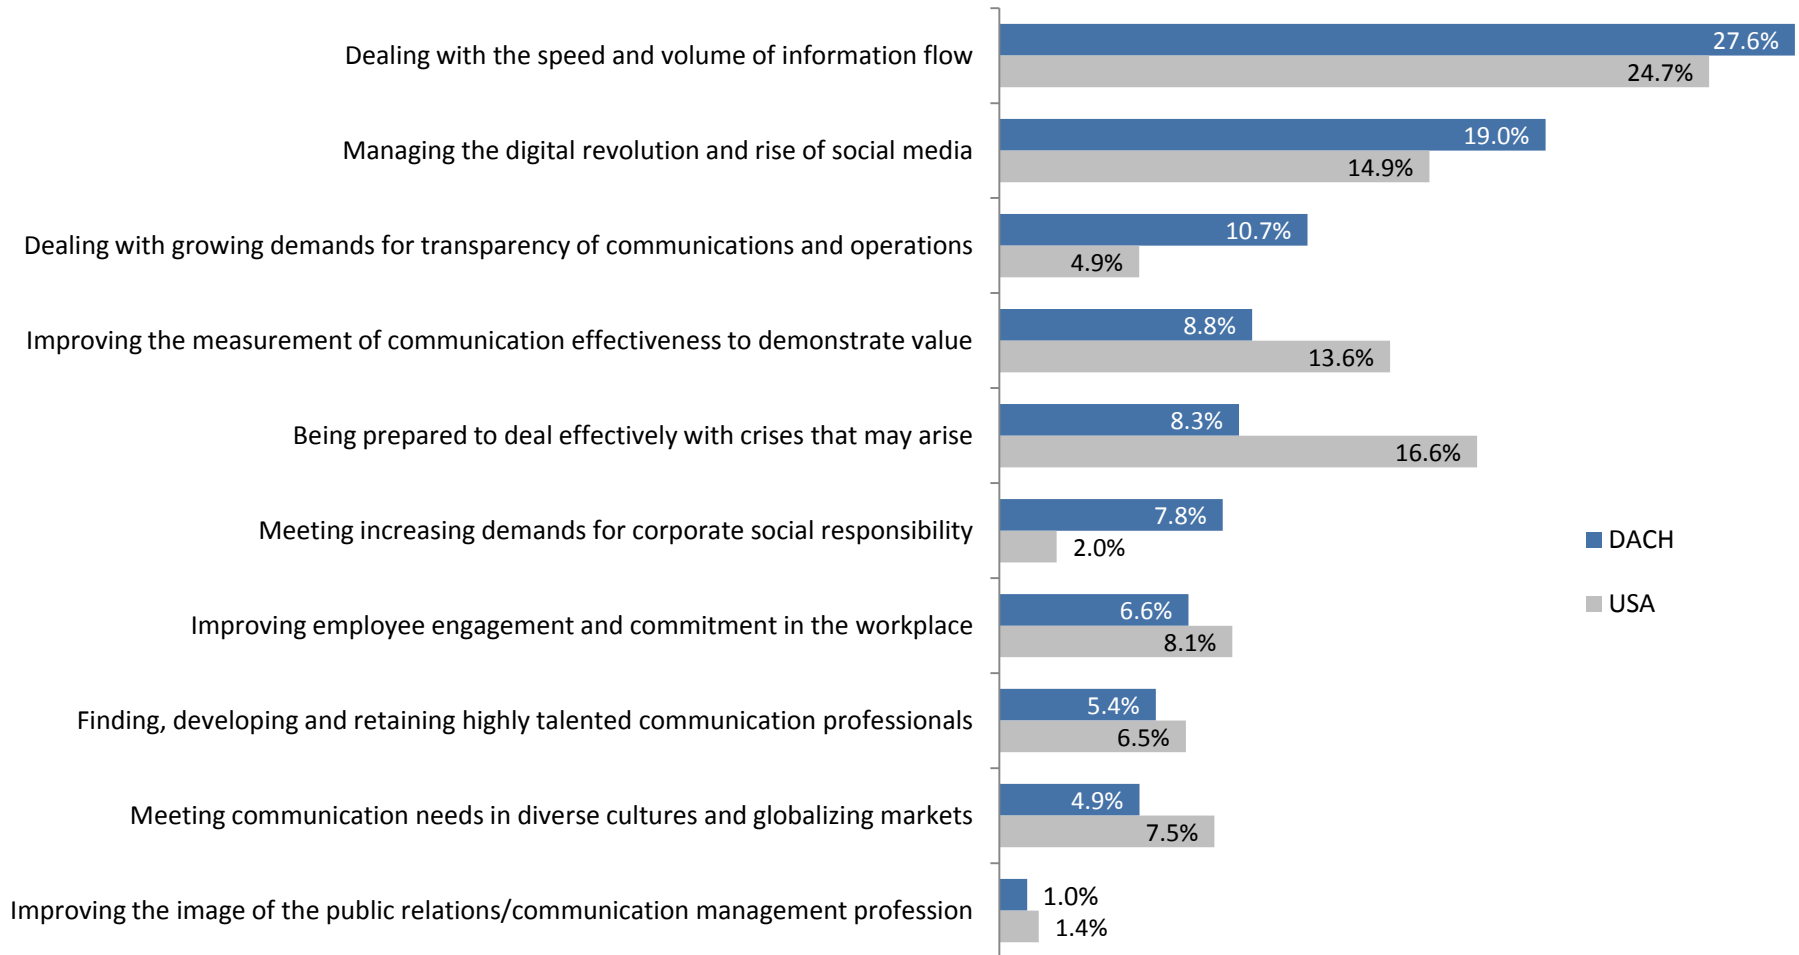

Important issues for leaders in public relations and communication management

## Dealing with the speed and volume of information flow is considered the most important issue by more than one fourth of the PR professionals

|   |       |
|---|-------|
| Dealing with the speed and volume of information flow                           | 27.6% |
| Managing the digital revolution and rise of social media                        | 19.0% |
| Dealing with growing demands for transparency of communications and operations  | 10.7% |
| Improving the measurement of communication effectiveness to demonstrate value   | 8.8%  |
| Being prepared to deal effectively with crises that may arise                   | 8.3%  |
| Meeting increasing demands for corporate social responsibility                  | 7.8%  |
| Improving employee engagement and commitment in the workplace                   | 6.6%  |
| Finding, developing and retaining highly talented communication professionals   | 5.4%  |
| Meeting communication needs in diverse cultures and globalizing markets         | 4.9%  |
| Improving the image of the public relations/communication management profession | 1.0%  |

## Most important issues differ around the world: Transparency and CSR are more relevant in the DACH region, crises and measurement prevalent in the USA

# Overall importance of issues for leaders in PR and communication management in Germany, Austria and Switzerland

Leadership Survey 2012 / n = 1,766 PR professionals / Q: Please indicate to what extent you agree that each of the following issues is important to your communication leader (or you, if you are the leader) in your organization today. Scale: 1 (A little bit) – 7 (A great deal). Bars indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who clearly stated that the issue is important.

## Leaders in the DACH region and the United States judge the overall importance of strategic issues differently

|   | Germany      | Austria      | Switzerland  | USA          |
|---|--------------|--------------|--------------|--------------|
| Dealing with the speed and volume of information flow                           | 82.7%        | 81.1%        | 84.5%        | 91.0%        |
| Meeting increasing demands for corporate social responsibility                  | 67.5%        | 74.8%        | 64.8%        | 62.8%        |
| Managing the digital revolution and rise of social media                        | 83.7%        | 84.7%        | 82.4%        | 88.2%        |
| Improving the measurement of communication effectiveness to demonstrate value   | 68.0%        | 71.6%        | 64.1%        | 82.3%        |
| Being prepared to deal effectively with crises that may arise                   | <b>68.6%</b> | <b>76.1%</b> | <b>76.8%</b> | <b>91.4%</b> |
| Dealing with growing demands for transparency of communications and operations  | 68.8%        | 71.6%        | 70.4%        | 74.2%        |
| Meeting communication needs in diverse cultures and globalizing markets         | <b>45.0%</b> | <b>48.6%</b> | <b>48.6%</b> | <b>69.0%</b> |
| Improving the image of the public relations/communication management profession | 32.0%        | 42.8%        | 24.6%        | 46.6%        |
| Finding, developing and retaining highly talented communication professionals   | <b>57.4%</b> | <b>58.6%</b> | <b>54.2%</b> | <b>78.2%</b> |
| Improving employee engagement and commitment in the workplace                   | 71.8%        | 76.6%        | 64.8%        | 78.2%        |

Leadership Survey 2012 / PR Professionals / n = 1,402 (Germany), 222 (Austria), 142 (Switzerland), 804 (United States) / Q: Please indicate to what extent you agree that each of the following issues is important to your communication leader (or you, if you are the leader) in your organization today. Scale: 1 (A little bit) – 7 (A great deal). Values indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who clearly stated that the issue is important. Significant differences between the countries ( $p \leq 0,05$ ).

## Overall importance of issues in different types of organizations

|   | Publicly held corporation (stock ownership) | Private or state-owned company | Nonprofit, governmental, educational or political organization | Communication or public relations agency |
|---|---|--------------------------------|--|--|
| Dealing with the speed and volume of information flow                           | 81.1%                                       | 81.7%                          | 84.1%  | 82.2%                                    |
| Meeting increasing demands for corporate social responsibility                  | 70.1%                                       | 66.6%                          | 65.2%  | 68.6%                                    |
| Managing the digital revolution and rise of social media                        | 79.0%                                       | 84.0%                          | 81.2%  | 88.7%                                    |
| Improving the measurement of communication effectiveness to demonstrate value   | 68.0%                                       | 66.4%                          | 62.6%  | 74.9%                                    |
| Being prepared to deal effectively with crises that may arise                   | 75.1%                                       | 70.7%                          | 64.3%  | 68.6%                                    |
| Dealing with growing demands for transparency of communications and operations  | 71.0%                                       | 67.2%                          | 68.4%  | 69.8%                                    |
| Meeting communication needs in diverse cultures and globalizing markets         | <b>57.1%</b>                                | <b>45.1%</b>                   | <b>29.7%</b>   | <b>51.7%</b>                             |
| Improving the image of the public relations/communication management profession | 32.0%                                       | 29.3%                          | 28.5%  | 37.9%                                    |
| Finding, developing and retaining highly talented communication professionals   | <b>55.9%</b>                                | <b>51.1%</b>                   | <b>45.2%</b>   | <b>78.0%</b>                             |
| Improving employee engagement and commitment in the workplace                   | 71.9%                                       | 69.7%                          | 65.9%  | 78.8%                                    |

Leadership Survey 2012 / PR professionals / n = 338 (public corporation), 601 (private corporation), 414 (nonprofit, governmental etc.), 354 (agencies) / Q: Please indicate to what extent you agree that each of the following issues is important to your communication leader (or you, if you are the leader) in your organization today. Scale: 1 (A little bit) – 7 (A great deal). Values indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who clearly stated that the issue is important. No calculation of significances because respondents were allowed to assign themselves to multiple types of organizations.

# Top-level communication leaders focus on information speed, social media and employee engagement

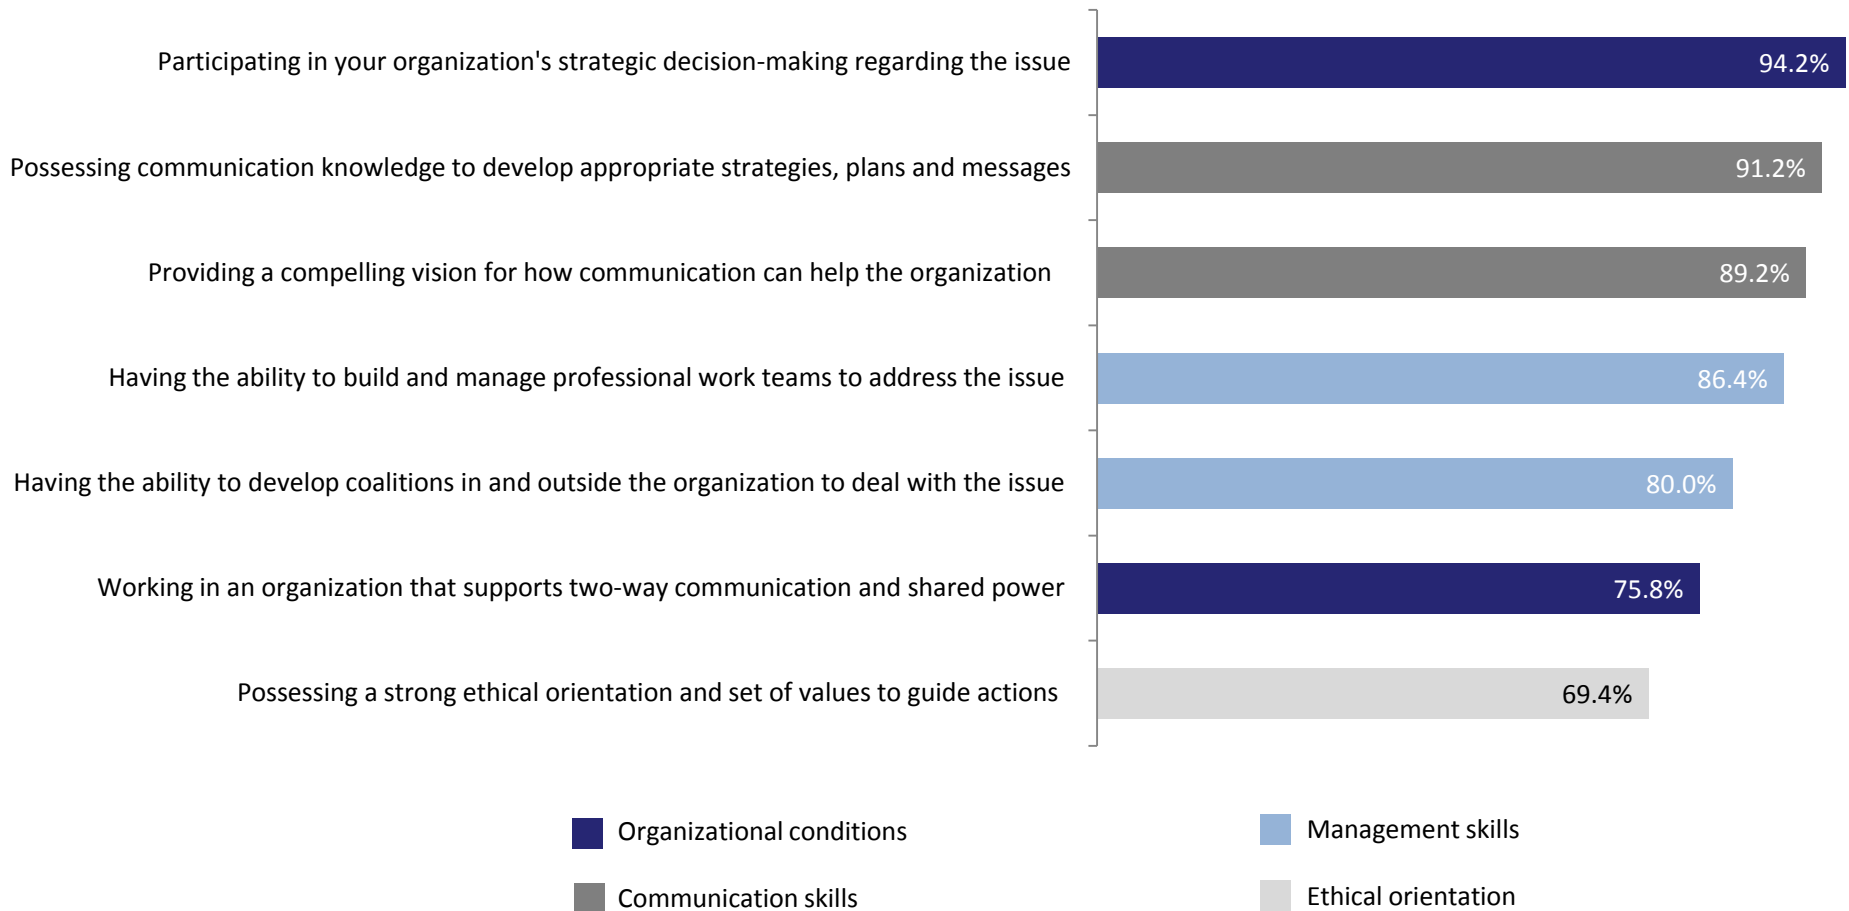

|   | Top leader   | 1 level below top leader | 2 levels below top leader | 3 or more levels below top leader |
|---|--------------|--------------------------|---------------------------|-----------------------------------|
| Dealing with the speed and volume of information flow                           | <b>87.5%</b> | 79.1%                    | 74.8%                     | 74.0%                             |
| Meeting increasing demands for corporate social responsibility                  | 69.3%        | 64.4%                    | 72.4%                     | 60.0%                             |
| Managing the digital revolution and rise of social media                        | <b>85.2%</b> | 81.8%                    | 82.2%                     | 82.0%                             |
| Improving the measurement of communication effectiveness to demonstrate value   | 68.6%        | 66.8%                    | 70.6%                     | 52.0%                             |
| Being prepared to deal effectively with crises that may arise                   | 71.5%        | 68.3%                    | 66.9%                     | 70.0%                             |
| Dealing with growing demands for transparency of communications and operations  | 70.9%        | 67.4%                    | 71.8%                     | 50.0%                             |
| Meeting communication needs in diverse cultures and globalizing markets         | 44.7%        | 43.2%                    | 50.9%                     | 52.0%                             |
| Improving the image of the public relations/communication management profession | 32.6%        | 28.3%                    | 39.9%                     | 32.0%                             |
| Finding, developing and retaining highly talented communication professionals   | 57.8%        | 55.0%                    | 57.7%                     | 50.0%                             |
| Improving employee engagement and commitment in the workplace                   | <b>75.0%</b> | 69.6%                    | 69.3%                     | 52.0%                             |

Leadership Survey 2012 / PR professionals working in organizations or agencies / n = 855 (top leader), 691 (1 level below), 168 (2 levels below), 51 (3 levels below) / Q: Please indicate to what extent you agree that each of the following issues is important to your communication leader (or you, if you are the leader) in your organization today. Scale: 1 (A little bit) – 7 (A great deal). Values indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who clearly stated that the issue is important. Significant differences between the groups regarding items 3, 4 and 10 ( $p \leq 0,05$ ).

Preconditions and abilities facilitating leadership in communication

# Participating in organizational decision making is the most important precondition for PR leaders to deal successfully with major challenges

Leadership Survey 2012 / n = 1,766 PR professionals / Q: For this most important issue you just selected, please indicate to what extent you agree that each of the seven following conditions or leadership personal abilities or qualities is important in helping your communication leader deal successfully with this specific issue. Scale: 1 (A little bit) – 7 (A great deal). Bars indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who clearly stated that the condition or ability is important.

# A strong ethical orientation is especially important to deal with CSR issues and demands for transparency

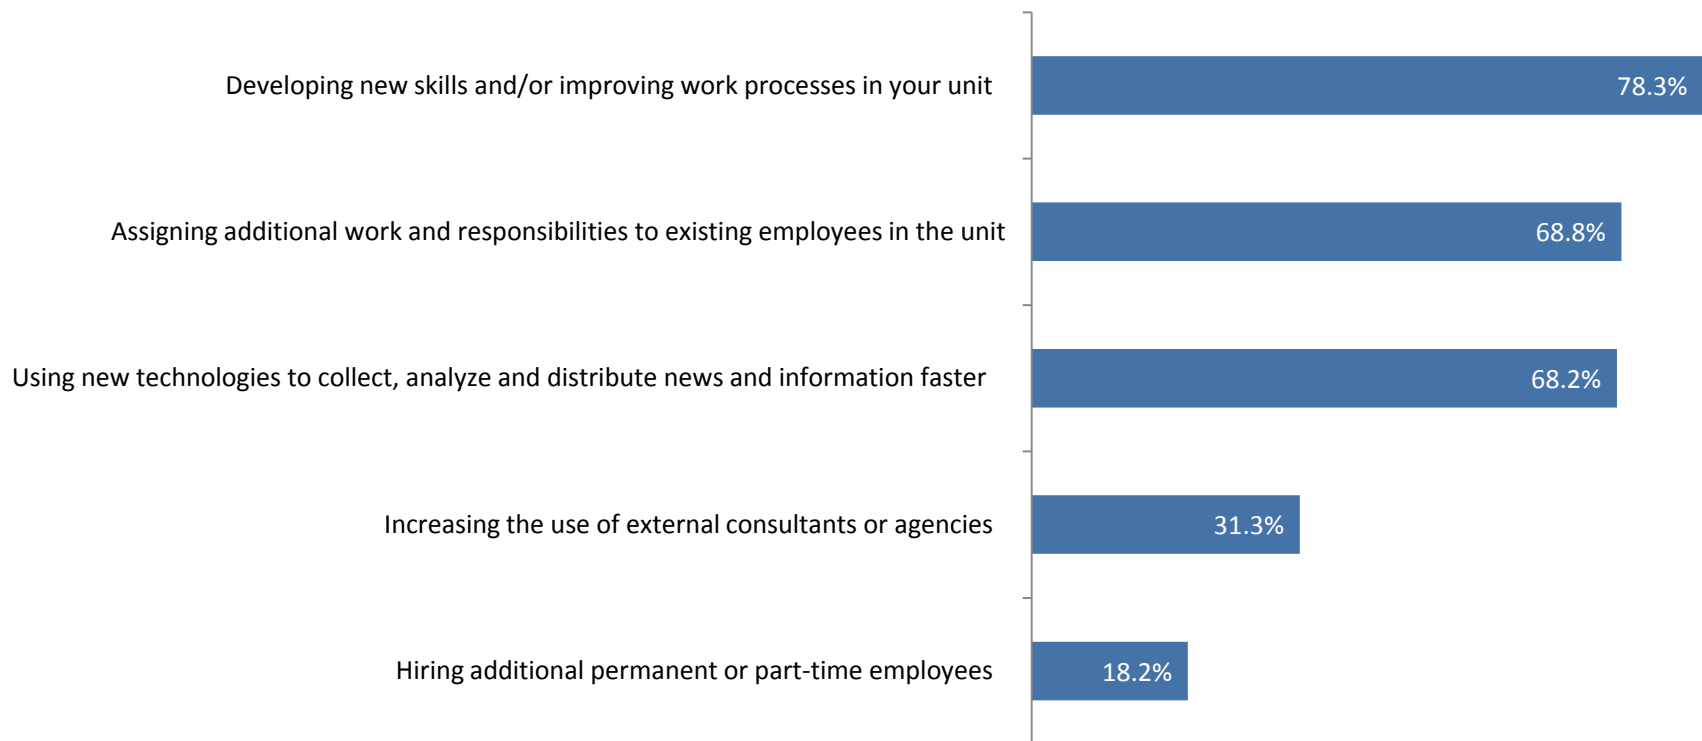

Leadership Survey 2012 / n = 1,766 PR professionals / Q: For this most important issue you just selected, please indicate to what extent you agree that each of the seven following conditions or leadership personal abilities or qualities is important in helping your communication leader deal successfully with this specific issue. Scale: 1 (A little bit) – 7 (A great deal); mean values.

Strategies and actions implemented  
by communication teams

# Communication departments rely on advanced skills, processes and technologies to handle the rising flow of information

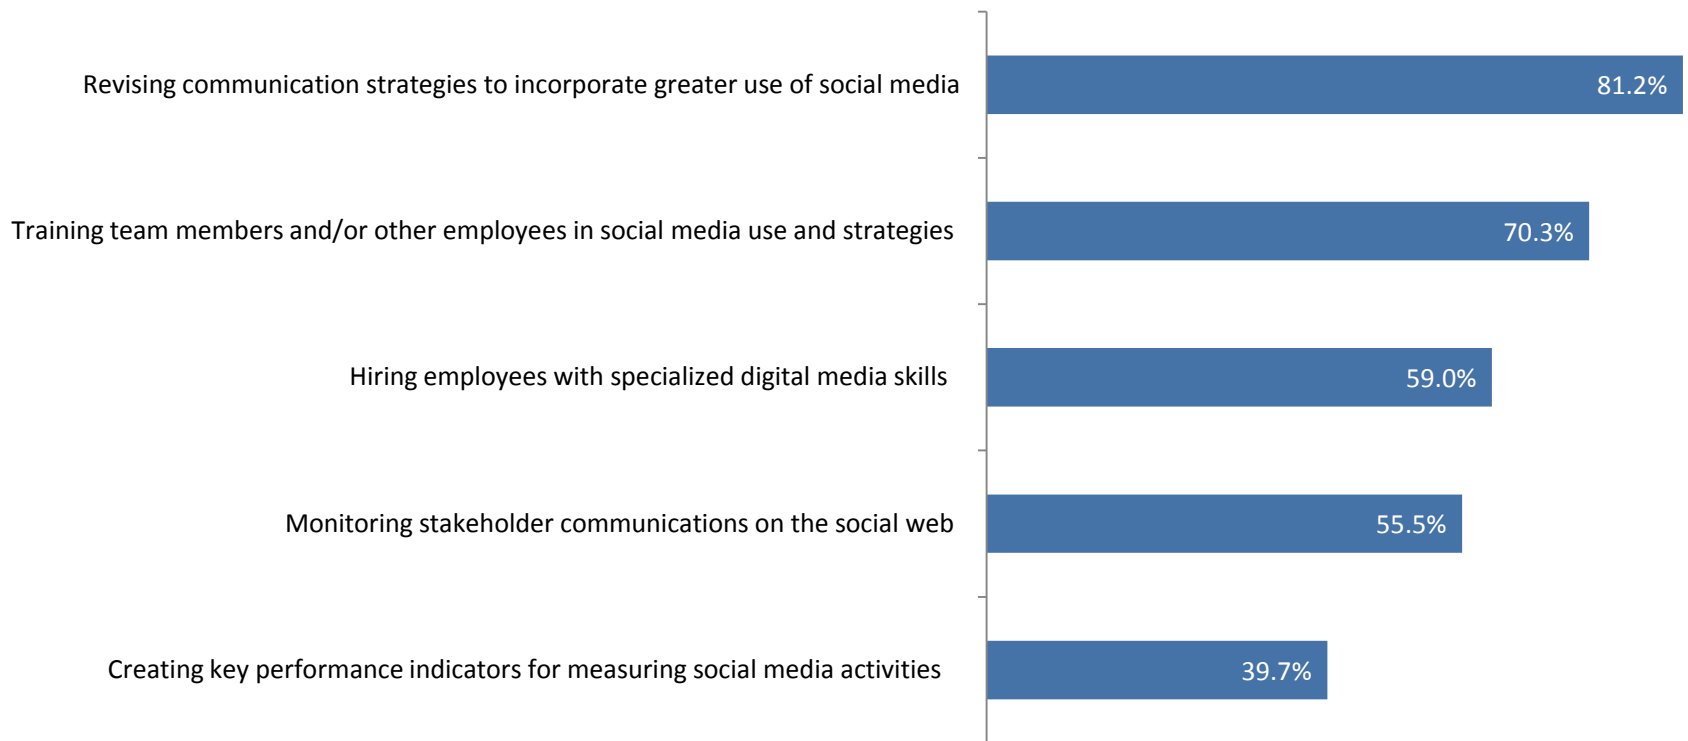

Strategies or actions implemented to deal with the speed and volume of information flow

Leadership Survey 2012 / n = 368 PR professionals working in communication departments / Q: Continuing with this most important issue you just selected, please indicate to what extent your communication team or unit is implementing each of the five strategies or actions listed below to help your organization deal with this most important issue. Scale: 1 (A little bit) – 7 (A great deal). Bars indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who clearly stated that their team implements the strategy.

# The challenge of social media has stimulated new communication strategies and training programs, but most organizations have no indicators to measure success

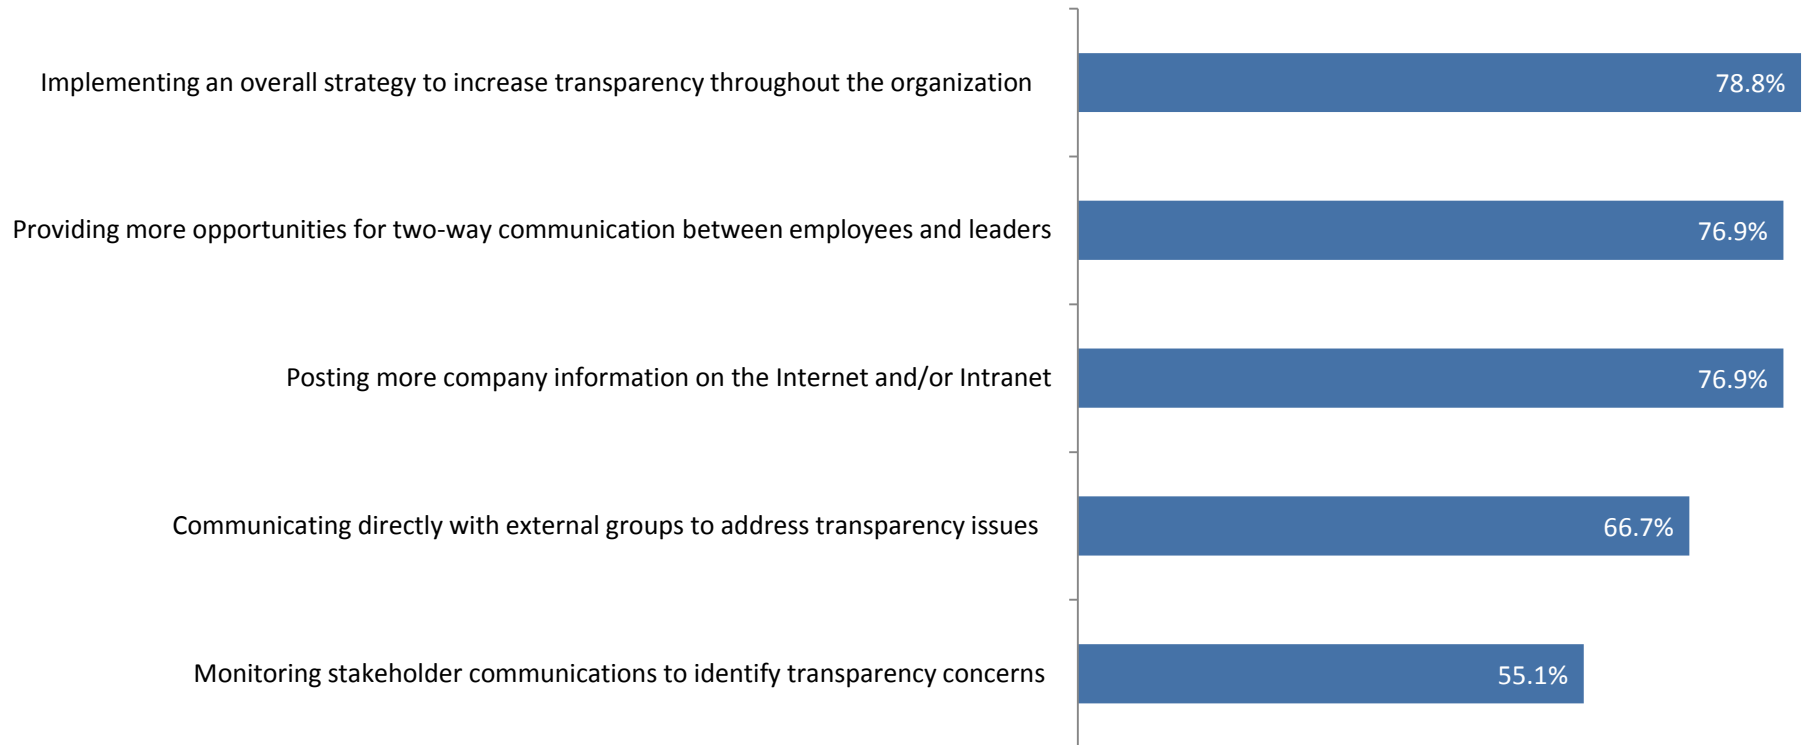

Strategies or actions implemented to manage the digital revolution and rise of social media

Leadership Survey 2012 / n = 229 PR professionals working in communication departments / Q: Continuing with this most important issue you just selected, please indicate to what extent your communication team or unit is implementing each of the five strategies or actions listed below to help your organization deal with this most important issue. Scale: 1 (A little bit) – 7 (A great deal). Bars indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who clearly stated that their team implements the strategy.

# While transparency is a big issue, every third communication department does not communicate directly with stakeholders or monitor their concerns

Strategies or actions implemented to deal with the growing demands for transparency of communications and operations

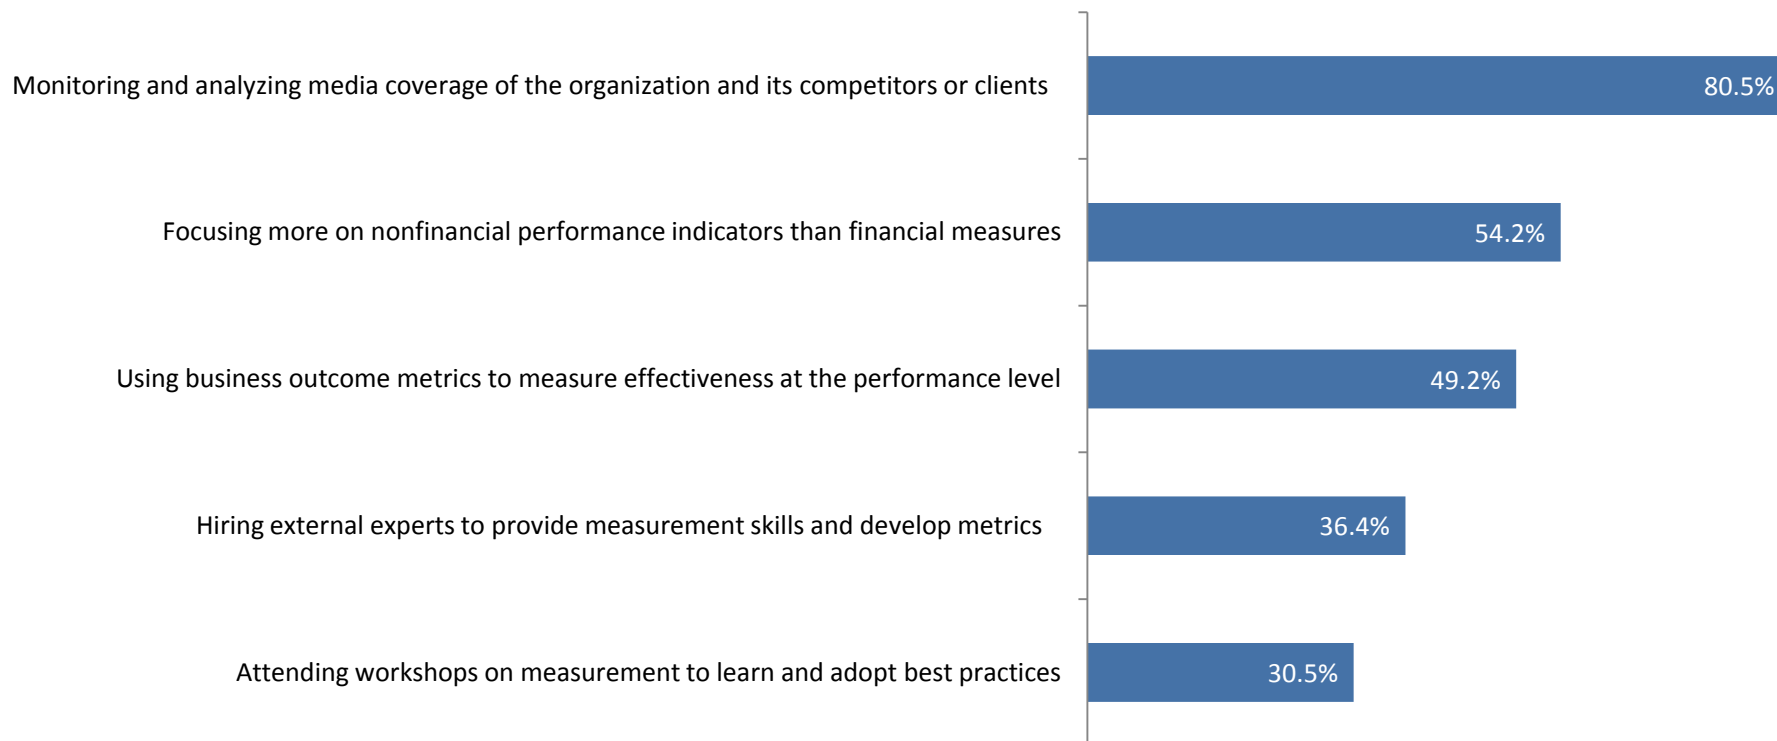

Leadership Survey 2012 / n = 156 PR professionals working in communication departments / Q: Continuing with this most important issue you just selected, please indicate to what extent your communication team or unit is implementing each of the five strategies or actions listed below to help your organization deal with this most important issue. Scale: 1 (A little bit) – 7 (A great deal). Bars indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who clearly stated that their team implements the strategy.

# Most communication teams rely on media coverage when trying to demonstrate the value of communications; only every second uses business metrics

Strategies or actions implemented to improve the measurement of communication effectiveness to demonstrate value

Leadership Survey 2012 / n = 118 PR professionals working in communication departments / Q: Continuing with this most important issue you just selected, please indicate to what extent your communication team or unit is implementing each of the five strategies or actions listed below to help your organization deal with this most important issue. Scale: 1 (A little bit) – 7 (A great deal). Bars indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who clearly stated that their team implements the strategy.

# Organizational leaders are a key target group for communication teams dealing with the demand for corporate social responsibility

Strategies or actions implemented to meet increasing demands for corporate social responsibility

Leadership Survey 2012 / n = 103 PR professionals working in communication departments / Q: Continuing with this most important issue you just selected, please indicate to what extent your communication team or unit is implementing each of the five strategies or actions listed below to help your organization deal with this most important issue. Scale: 1 (A little bit) – 7 (A great deal). Bars indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who clearly stated that their team implements the strategy.

| Enhance conflict management skills  | 80.0%        | 76.8%        |
| Develop better measures to document the value and contributions of public relations | 64.7%        | 67.0%        |
| Require professional accreditation or licensing                                     | 27.5%        | 30.8%        |
| Impose tough penalties on ethical violators   | 31.0%        | 33.6%        |
| Develop a core global education curriculum  | <b>28.5%</b> | <b>34.2%</b> |
| Enhance professional skills in coping with work-related stress                      | 70.0%        | 69.7%        |
| Strengthen change management skills and capabilities                                | 78.6%        | 74.5%        |

Leadership Survey 2012 / PR professionals working in organisations or agencies/ n = 771 (top leaders), 884 (followers) / Q: Please indicate to what extent you agree with the relative importance of each action below that might be taken to improve the development of future leaders in the field and enhance the communication profession. Scale: 1 (A little bit) – 7 (A great deal). Percentage values indicate scale points 5 – 7. Significant differences regarding item 10 ( $p \leq 0,05$ ). Top leader: 0 levels between own position and the highest ranked communication leader in the organization; Followers: 1 or more levels between own position and the highest ranked.

## Perceptions on leadership development in communications are quite similar in different types of organizations

|   | Publicly held corporation (stock ownership) | Private or state-owned company | Nonprofit, governmental, educational or political organization | Communication or public relations agency |
|---|---|--------------------------------|--|--|
| Increase cultural understanding and sensitivity                                     | 64.8%                                       | 54.6%                          | 49.3%  | 59.3%                                    |
| Improve the listening skills of professionals                                       | 72.8%                                       | 72.2%                          | 76.3%  | 73.7%                                    |
| Develop training to enhance the emotional intelligence of PR professionals          | 53.8%                                       | 57.2%                          | 57.5%  | 59.9%                                    |
| Urge professional associations to work together to develop leaders                  | 25.1%                                       | 31.4%                          | 34.1%  | 28.5%                                    |
| Strengthen the business/economic component of communication education programs      | 69.2%                                       | 66.4%                          | 57.0%  | 68.6%                                    |
| Enhance conflict management skills  | 75.1%                                       | 78.0%                          | 79.0%  | 80.2%                                    |
| Develop better measures to document the value and contributions of public relations | 70.1%                                       | 66.1%                          | 61.4%  | 68.4%                                    |
| Require professional accreditation or licensing                                     | 30.5%                                       | 28.6%                          | 26.6%  | 33.3%                                    |
| Impose tough penalties on ethical violators   | 33.7%                                       | 30.9%                          | 31.2%  | 34.7%                                    |
| Develop a core global education curriculum  | 32.0%                                       | 32.4%                          | 26.3%  | 35.0%                                    |
| Enhance professional skills in coping with work-related stress                      | 67.5%                                       | 68.9%                          | 74.4%  | 69.5%                                    |
| Strengthen change management skills and capabilities                                | 83.4%                                       | 77.5%                          | 72.9%  | 72.3%                                    |

Leadership Survey 2012 / PR professionals / n = 338 (public corporation), 601 (private corporation), 414 (nonprofit, governmental etc.), 354 (agencies) / Q: Please indicate to what extent you agree with the relative importance of each action below that might be taken to improve the development of future leaders in the field and enhance the communication profession. Scale: 1 (A little bit) – 7 (A great deal). Values indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who clearly stated that the action is important. No calculation of significances because respondents were allowed to assign themselves to multiple kinds of organizations.

## Further important actions mentioned by respondents to improve the development of future communication leaders

Think and talk  
business  
language

Slow down processes  
in order to gain higher  
levels of maturity

Improve consulting skills  
of communication  
professionals; enable  
them to pass knowledge  
on to clients

Courage and ability  
to prioritize and,  
if necessary,  
eliminate projects

Training time  
management and  
improving work-  
life-balance

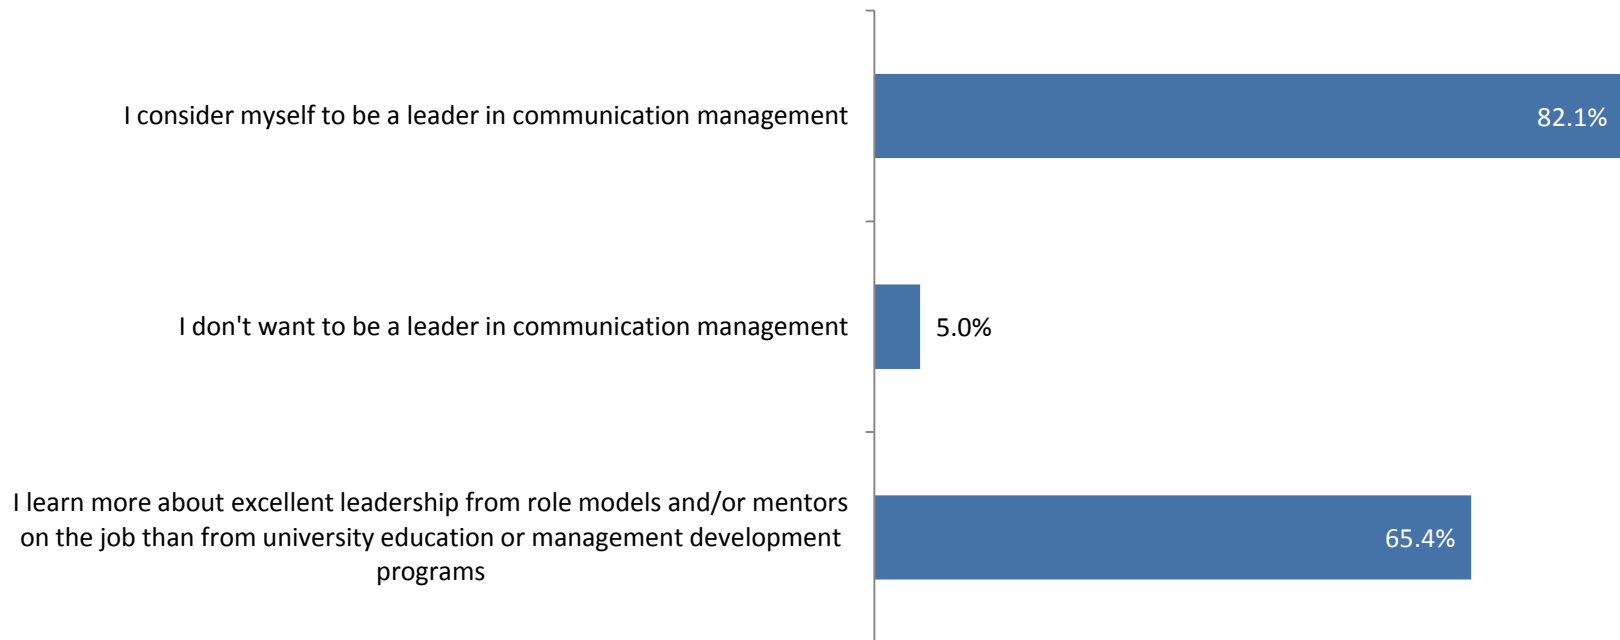

Development of  
quality standards for  
education programs

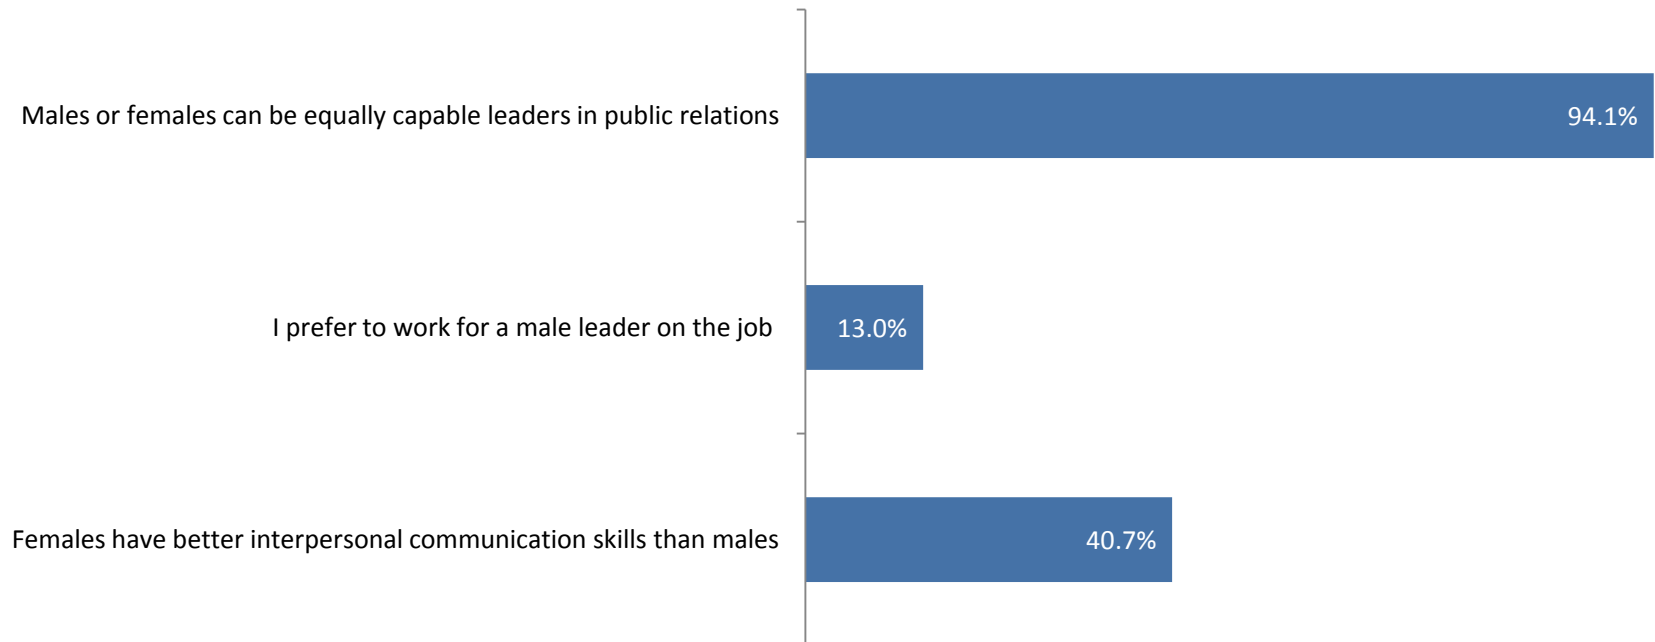

Personal beliefs and perceptions  
about leadership

## Self perception as a leader: Eight out of ten practitioners surveyed consider themselves to be a communication leader

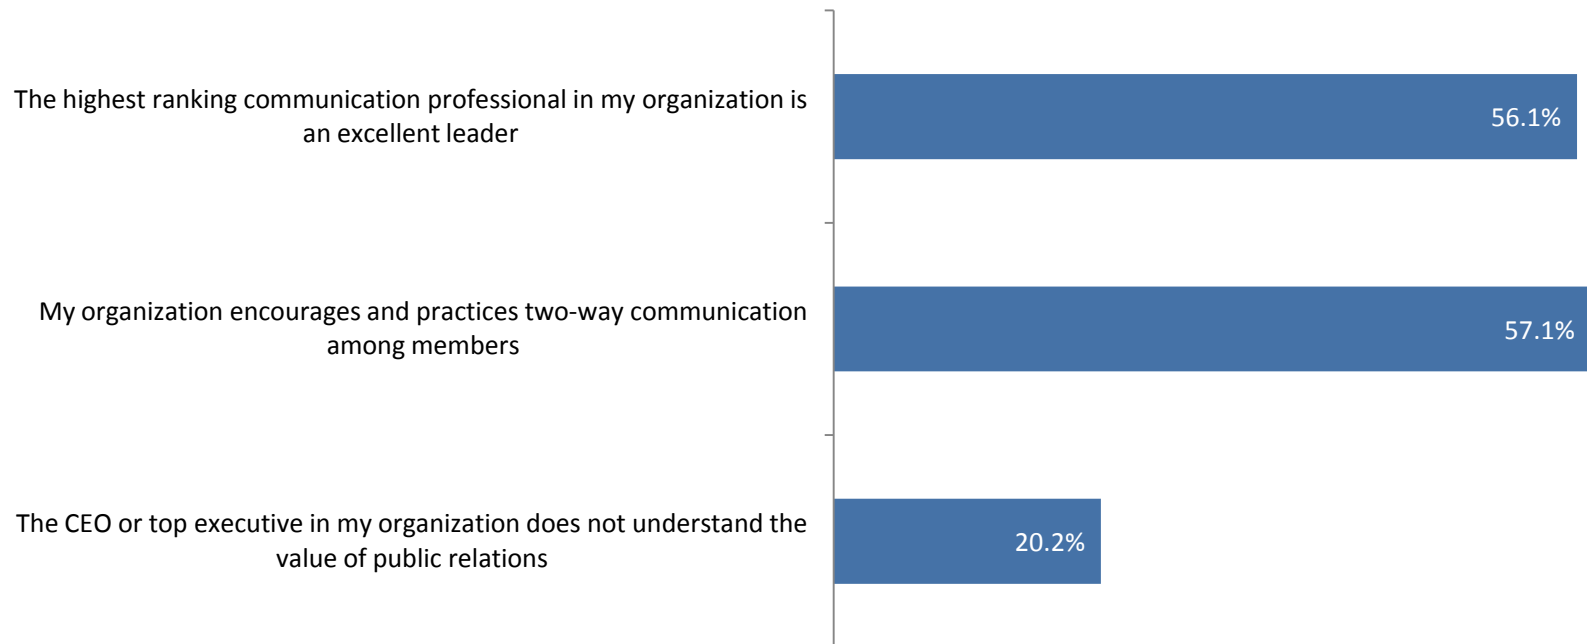

Leadership Survey 2012 / n = 1,656 PR professionals working in organizations or agencies / Q: In this section, please indicate the extent to which you agree with the following statements. Scale: 1 (Strongly disagree) – 7 (Strongly agree). Bars indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who agree with the statement.

## Gender and leadership: 94 per cent state that men and women can be excellent communication leaders

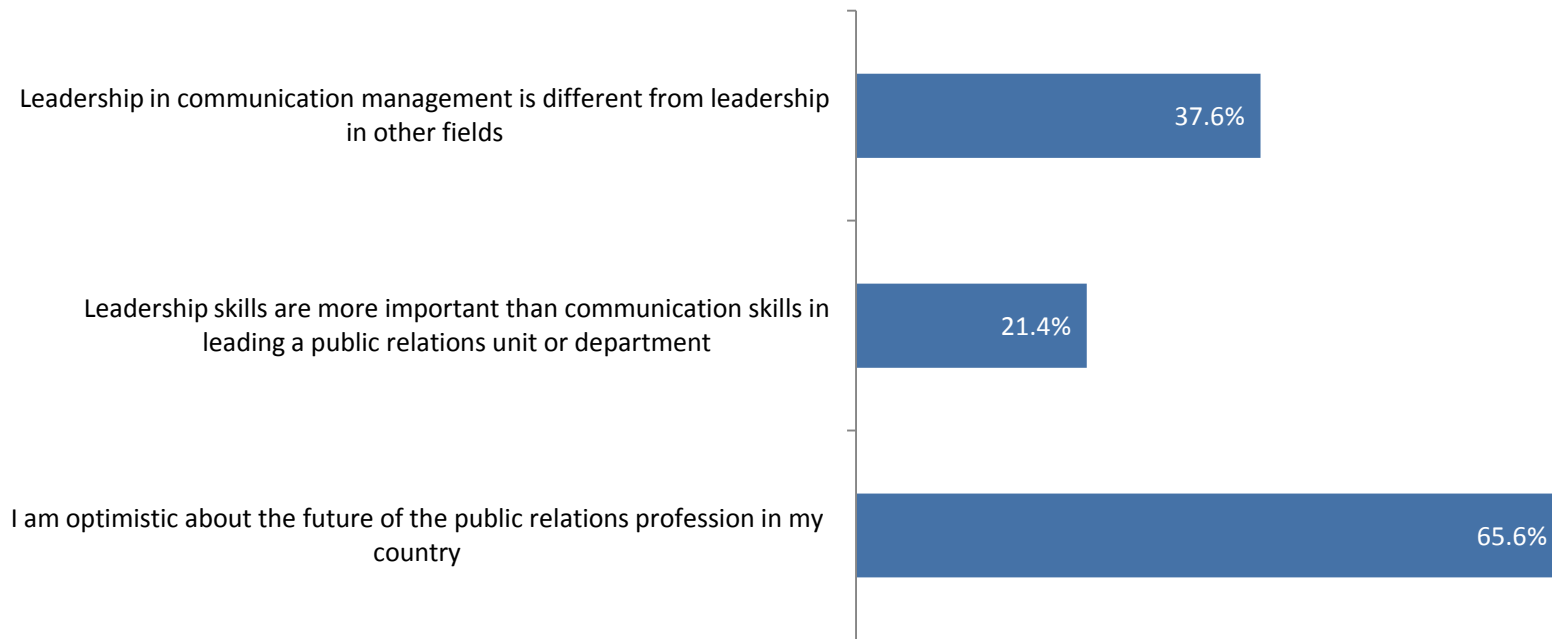

Leadership Survey 2012 / n = 1,656 PR professionals working in organizations or agencies / Q: In this section, please indicate the extent to which you agree with the following statements. Scale: 1 (Strongly disagree) – 7 (Strongly agree). Bars indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who agree with the statement.

## Organizational conditions: While 8 out of 10 agree that their CEO values PR, only 56 per cent rate their top communication professional as an excellent leader

## Professional impacts: Only two out of ten practitioners consider leadership skills more important than communication skills in leading a PR department

Leadership Survey 2012 / n = 1,656 PR professionals working in organizations or agencies / Q: In this section, please indicate the extent to which you agree with the following statements. Scale: 1 (Strongly disagree) – 7 (Strongly agree). Bars indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who agree with the statement.

# Self perception as a leader influences how communication professionals view various leadership issues – leaders don't think leadership in PR is very specific

Leadership Survey 2012 / n = 1,656 PR professionals working in organizations or agencies / Q: In this section, please indicate the extent to which you agree with the following statements. Scale:1 (Strongly disagree) – 7 (Strongly agree). Graphs indicate mean values. Professionals who perceive themselves as a leader: agreement (scale points 5 – 7) to the statement “I consider myself to be a leader in communication management”; professionals who don't perceive themselves to be a leader: disagreement (scale points 1 – 3). Significant differences between the groups for items 1 and 4 ( $p \leq 0,05$ ).

## Excellent top communication managers act as role models for leadership in their organizations

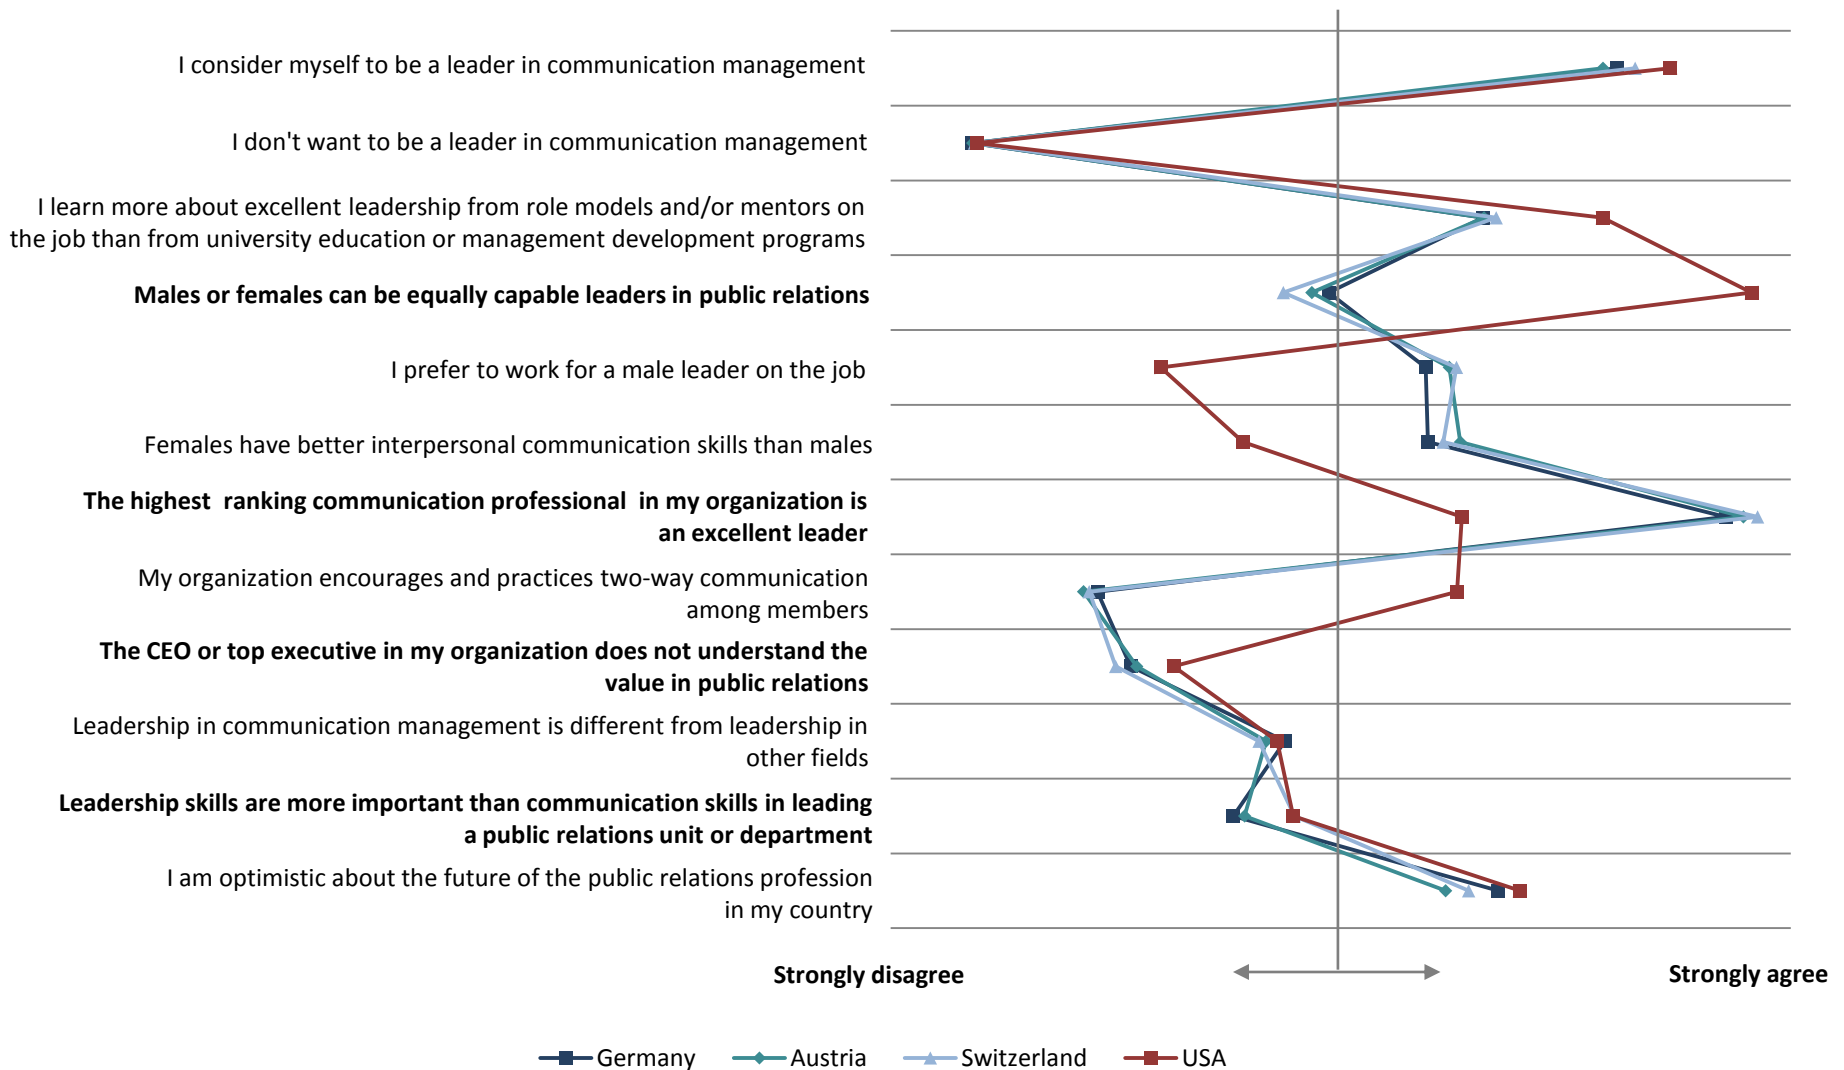

|  | <b>Professionals who consider the top communication professional in their organization to be excellent</b> | <b>Professionals who don't consider the top communication professional in their organization to be excellent</b> |
|--|--|--|
| I learn more about excellent leadership from role models and/or mentors on the job than from university education or management development programs | <b>70.5%</b>   | <b>58.6%</b>   |
| Leadership in communication management is different from leadership in other fields  | 39.4%  | 35.3%  |
| Leadership skills are more important than communication skills in leading a public relations unit or department                                      | 22.0%  | 21.2%  |

Leadership Survey 2012 / PR professionals working in organizations or agencies / n = 929 (consider excellent), 425 (don't consider excellent) / Q: In this section, please indicate the extent to which you agree with the following statements. Scale: 1 (Strongly disagree) – 7 (Strongly agree). Percentage values indicate scale points 5 – 7. Professionals who consider the highest ranking communication professional in their organization to be an excellent leader: agreement (scale points 5 – 7) to the statement “The highest ranking communication professional in my organization is an excellent leader”; professionals who don't consider the highest ranking communication professional in their organization to be an excellent leader: disagreement (scale points 1 – 3). Significant differences between the groups regarding item 1 ( $p \leq 0,05$ ).

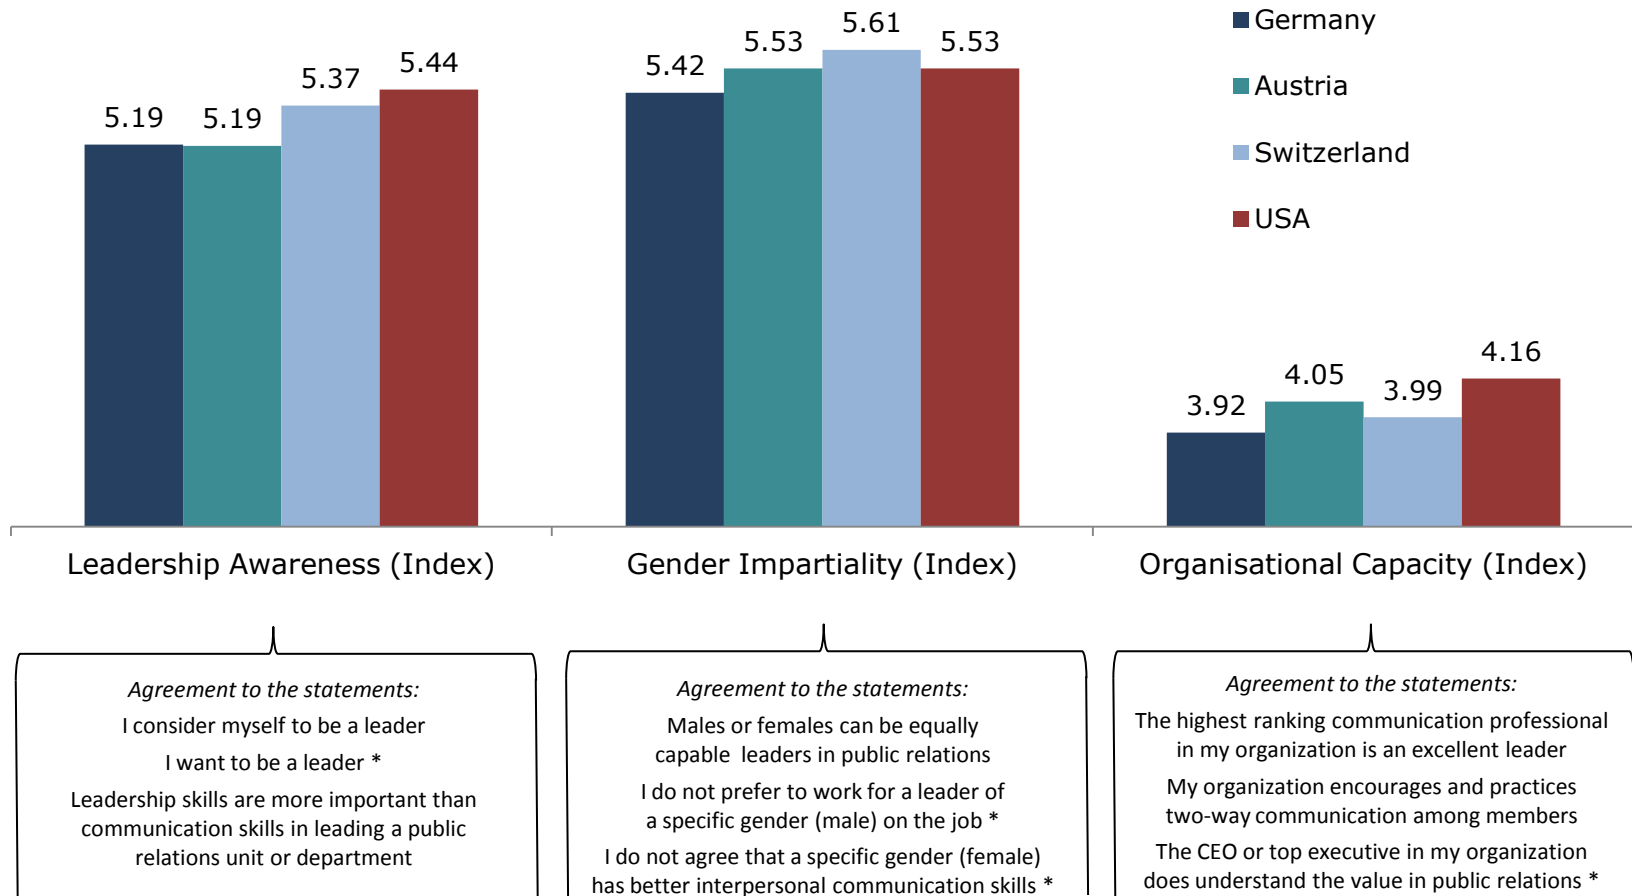

Leadership in PR related to country,  
organization, gender, hierarchy and age

# Leadership perceptions in different countries

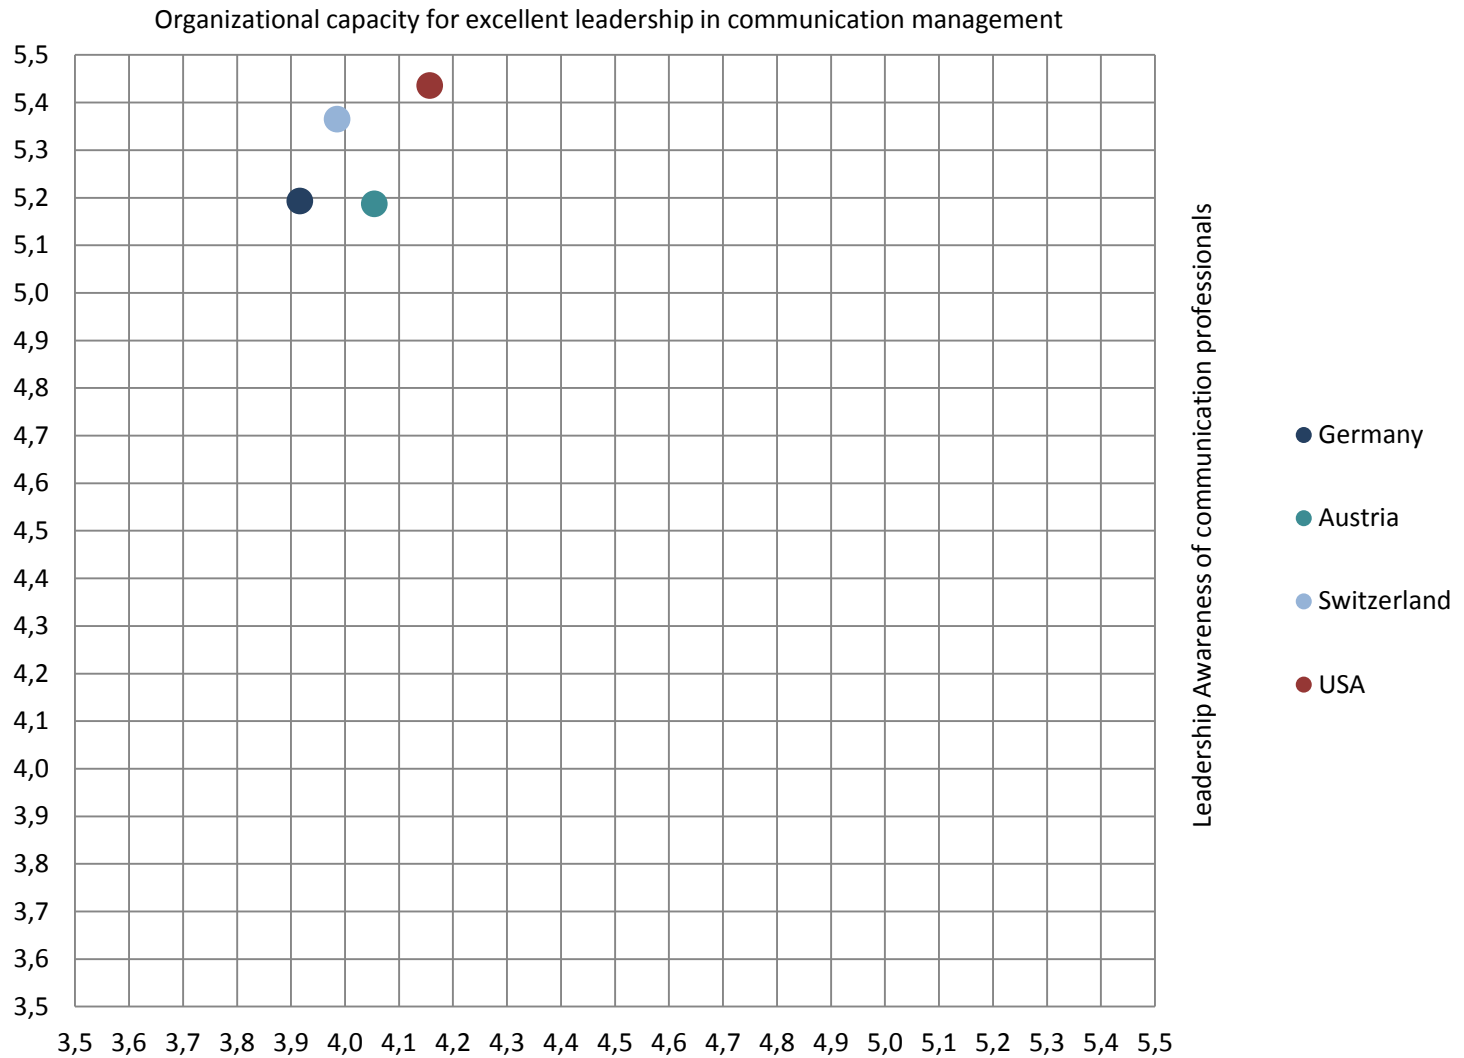

Leadership Survey 2012 / PR professionals working in organizations or agencies / n = 1,317 (Germany), 203 (Austria), 136 (Switzerland), 725 (USA) / Q: In this section, please indicate the extent to which you agree with the following statements. Scale: 1 (Strongly disagree) – 7 (Strongly agree). Graphs indicate mean values. Significant differences between the countries regarding the items 1, 3, 4, 5, 6, 7, 9, 11 and 12 ( $p \leq 0,05$ ).

# An index-based comparison of leadership in communication management in different countries

Leadership Survey 2012 / n = 1,656 PR professionals working in organizations or agencies from Austria, Germany and Switzerland; n = 725 PR professionals from the USA / Q: In this section, please indicate the extent to which you agree with the following statements. Scale: 1 (Strongly disagree) – 7 (Strongly agree). Statements marked \* were phrased contrarily in the questionnaire and reverse coded for index construction. Indexes have been calculated as the average of the mean values for all statements included.

# Combining personal awareness and organizational support for leadership in communication: Germany is lagging behind

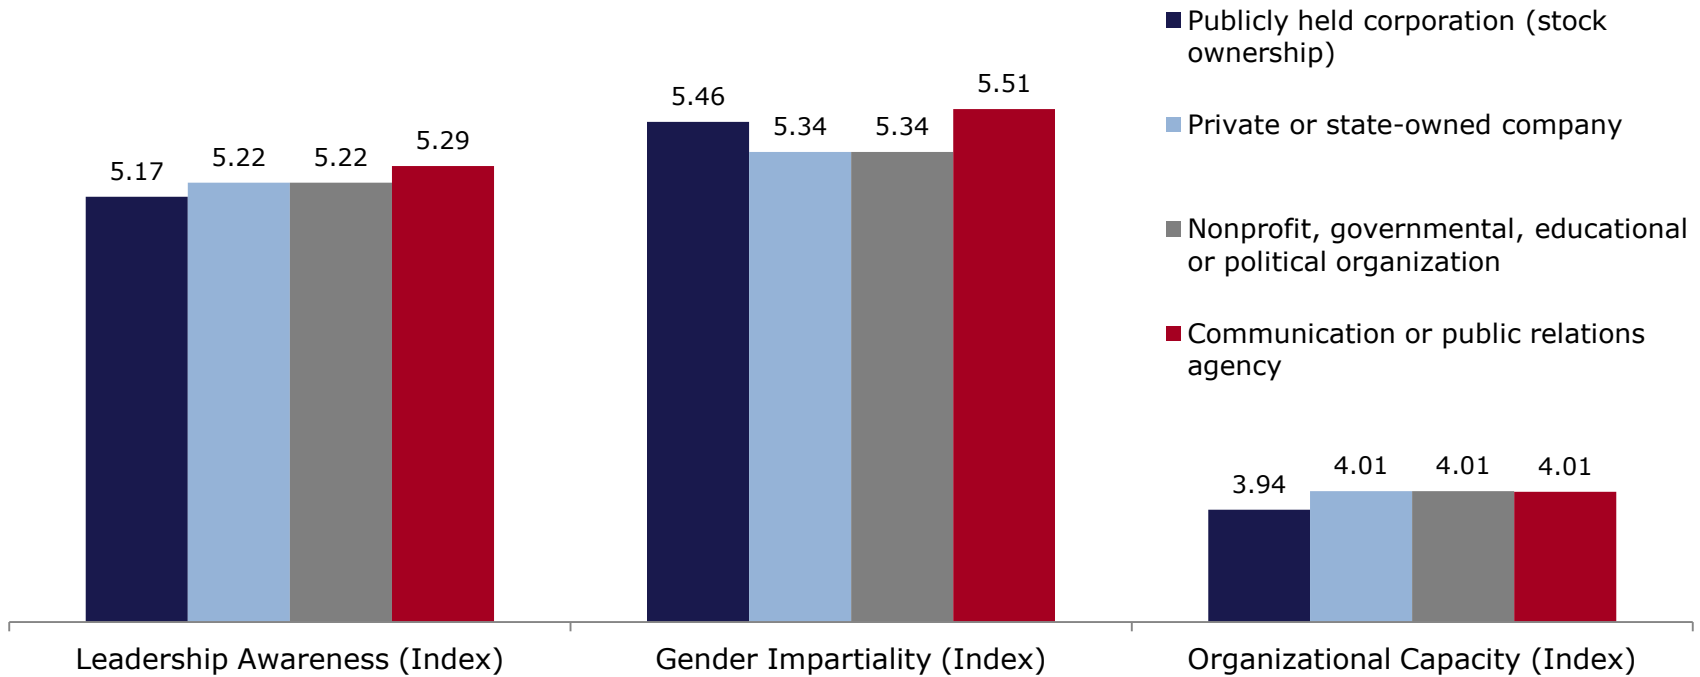

Leadership Survey 2012 / n = 1,656 PR professionals working in organizations or agencies from Austria, Germany and Switzerland; n = 725 PR professionals from the USA / Figure displays index values for leadership awareness and organizational conditions (scale 1.0 to 7.0). See page 44 for details of the index construction.

## Leadership perceptions in different types of organizations

|  | Publicly held corporation (stock ownership) | Private or state-owned company | Nonprofit, governmental, educational or political organization | Communication or public relations agency |
|--|---|--------------------------------|--|--|

| Leadership in communication management is different from leadership in other fields  | 37.0%                                       | 38.9%                          | 40.3%  | 32.8%                                    |
| Leadership skills are more important than communication skills in leading a public relations unit or department                                      | 22.5%                                       | 19.8%                          | 21.0%  | 23.7%                                    |
| I am optimistic about the future of the public relations profession in my country  | 70.1%                                       | 66.6%                          | 59.9%  | 68.6%                                    |

Leadership Survey 2012 / PR professionals working in organizations or agencies / n = 338 (public corporation), 601 (private corporation), 414 (nonprofit, governmental etc.), 354 (agencies) / Q: In this section, please indicate the extent to which you agree with the following statements. Scale: 1 (Strongly disagree) – 7 (Strongly agree). Values indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who agree with the statement. No calculation of significances because respondents were allowed to assign themselves to multiple kinds of organizations.

# Index for leadership perceptions in different types of organization

*Agreement to the statements:*  
 I consider myself to be a leader  
 I want to be a leader \*  
 Leadership skills are more important than communication skills in leading a public relations unit or department

*Agreement to the statements:*  
 Males or females can be equally capable leaders in public relations  
 I do not prefer to work for a leader of a specific gender (male) on the job \*  
 I do not agree that a specific gender (female) has better interpersonal communication skills \*

*Agreement to the statements:*  
 The highest ranking communication professional in my organization is an excellent leader  
 My organization encourages and practices two-way communication among members  
 The CEO or top executive in my organization does understand the value in public relations \*

Leadership Survey 2012 / n = 1,707 PR professionals working in organizations or agencies from Austria, Germany and Switzerland / Q: In this section, please indicate the extent to which you agree with the following statements. Scale: 1 (Strongly disagree) – 7 (Strongly agree). Statements marked \* were phrased contrarily in the questionnaire and reverse coded for index construction. Indexes have been calculated as the average of the mean values for all statements included.

# Professionals working in the governmental sector report about weaker preconditions for leadership in public relations

Leadership Survey 2012 / n = 1,707 PR professionals working in organizations or agencies from Austria, Germany and Switzerland / Figure displays index values for leadership awareness and organizational conditions (scale 1.0 to 7.0). See page 47 for details of the index construction.

## Leadership perceptions and gender: Less female PR practitioners consider themselves to be a leader, and a smaller percentage wants to take this role

|  | Female       | Male         |
|--|--------------|--------------|
| I consider myself to be a leader in communication management   | <b>75.2%</b> | <b>88.2%</b> |
| I don't want to be a leader in communication management  | <b>7.2%</b>  | <b>3.1%</b>  |
| I learn more about excellent leadership from role models and/or mentors on the job than from university education or management development programs | 64.1%        | 66.5%        |
| Males or females can be equally capable leaders in public relations  | <b>92.0%</b> | <b>96.0%</b> |
| I prefer to work for a male leader on the job  | 12.6%        | 13.4%        |
| Females have better interpersonal communication skills than males  | <b>52.6%</b> | <b>30.2%</b> |
| The highest ranking communication professional in my organization is an excellent leader   | 52.2%        | 59.6%        |
| My organization encourages and practices two-way communication among members   | <b>51.4%</b> | <b>62.2%</b> |
| The CEO or top executive in my organization does not understand the value of public relations  | 22.5%        | 18.1%        |
| Leadership in communication management is different from leadership in other fields  | <b>33.7%</b> | <b>41.0%</b> |
| Leadership skills are more important than communication skills in leading a public relations unit or department                                      | 20.3%        | 22.4%        |
| I am optimistic about the future of the public relations profession in my country  | 62.3%        | 68.6%        |

Leadership Survey 2012 / PR professionals working in organizations or agencies / n = 778 (female), 878 (male) / Q: In this section, please indicate the extent to which you agree with the following statements. Scale: 1 (Strongly disagree) – 7 (Strongly agree). Values indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who agree with the statement. Significant differences between men and women regarding the items 1, 2, 4, 6, 7, 8, 10 and 12 ( $p \leq 0,05$ ).

## Female professionals work significantly more often on lower hierarchy levels

|                                   | <b>Female</b> | <b>Male</b> |
|-----------------------------------|---------------|-------------|
| Top leader                        | 38.7%         | 53.5%       |
| 1 level below top leader          | 46.7%         | 35.1%       |
| 2 levels below top leader         | 10.6%         | 9.2%        |
| 3 or more levels below top leader | 4.0%          | 2.2%        |

## Leadership perceptions and hierarchy: Top level communication professionals have a stronger belief in existing two-way communication and CEO's support

|  | Top leader   | Follower     |
|--|--------------|--------------|
| I consider myself to be a leader in communication management   | <b>97.7%</b> | <b>68.4%</b> |
| I don't want to be a leader in communication management  | 2.1%         | 7.6%         |
| I learn more about excellent leadership from role models and/or mentors on the job than from university education or management development programs | 66.3%        | 64.7%        |
| Males or females can be equally capable leaders in public relations  | 95.6%        | 92.9%        |
| I prefer to work for a male leader on the job  | 10.5%        | 15.3%        |
| Females have better interpersonal communication skills than males  | 41.0%        | 40.5%        |
| The highest ranking communication professional in my organization is an excellent leader   | <b>69.1%</b> | <b>44.8%</b> |
| My organization encourages and practices two-way communication among members   | <b>64.1%</b> | <b>51.1%</b> |
| The CEO or top executive in my organization does not understand the value of public relations  | <b>16.5%</b> | <b>23.4%</b> |
| Leadership in communication management is different from leadership in other fields  | 37.6%        | 37.6%        |
| Leadership skills are more important than communication skills in leading a public relations unit or department                                      | 22.2%        | 20.8%        |
| I am optimistic about the future of the public relations profession in my country  | 67.1%        | 64.5%        |

Leadership Survey 2012 / PR professionals working in organisations or agencies/ n = 771 (top leaders), 884 (followers) / Q: In this section, please indicate the extent to which you agree with the following statements. Scale: 1 (Strongly disagree) – 7 (Strongly agree). Values indicate the percentage of respondents who have marked scale points 5 – 7, i.e. who agree with the statement. Significant differences between the groups regarding items 1, 2, 3, 5, 7, 8, 9 and 10 ( $p \leq 0,05$ ). Top leader: 0 levels between own position and the highest ranked communication leader in the organization; Followers: 1 or more levels between own position and the highest ranked.

# Younger professionals judge top leaders more critically than older age groups

Leadership Survey 2012 / PR professionals working in organizations or agencies / n = 314 (< 36 years), 619 (36 - 45 years), 542 (46 - 55 years), 155 (> 56 years) / Q: In this section, please indicate the extent to which you agree with the following statements. Scale: 1 (Strongly disagree) – 7 (Strongly agree). Graphs indicate mean values. Significant differences between the groups regarding items 1, 2, 5, 7, 8, 10 and 11 (p ≤ 0,05).

Authors and partners of the study

## About the authors

### **Prof. Dr. Ansgar Zerfass, Universität Leipzig**

Ansgar Zerfass is a professor of communication management at the University of Leipzig, Germany, executive director of the European Public Relations Education and Research Association, Brussels, and editor of the International Journal of Strategic Communication, Routledge Publishers, USA. He has published 28 books and more than 140 journal articles and book chapters on corporate communications and public relations. Ansgar Zerfass holds management and leadership responsibilities in several organizations and has been member of the management board of a state-owned company during his previous career in the business world. Since several years, he has been engaged in cross-national research projects in the field of online communications and social media, measurement and evaluation, communication trends and competency building for communication managers.

## **Plank Center for Leadership in Public Relations**

The Plank Center for Leadership in Public Relations seeks to advance leadership values and skills in public relations and bridge the gap between education and practice. Established by the University of Alabama in 2005 and led by a national advisory board of distinguished educators and practitioners, the Center uses a variety of approaches and activities to support its mission. These include awards and recognition programs, scholarships, speaker programs, publications, scholarly and professional papers, workshops and symposia, research grants, and the collection of histories and papers of leaders in the field. The Cross-cultural Study of Leadership in Public Relations and Communication Management initiated by the Plank Center is supported by Heyman Associates and IBM and conducted by 27 researchers from universities and organizations across the globe, headed by Prof. Dr. Bruce Berger and Dr. Juan Meng. >> [www.plankcenter.ua.edu](http://www.plankcenter.ua.edu)

## **Academic Society for Corporate Management and Communication**

Anchored in the Association for the Promotion of Science and Humanities in Germany (Stifterverband), the Academic Society is an initiative by leading research universities and global corporations who have joined forces to shape the future of corporate communications by establishing a strong platform for the exchange of knowledge between practice and research and by funding leading-edge research in the field. The Academic Society has initiated a research program on Leadership in Communication Management at the Universities of Leipzig and Münster, including stipends for Ph.D. researchers and supporting several projects like this study. >> [www.akademische-gesellschaft.com](http://www.akademische-gesellschaft.com)

## **Convento**

For almost 20 years, Convento has been a leading service provider for management software in the field of corporate and financial communications in the German speaking countries. It helps professionals in public and investor relations to establish effective contact and relationship management systems. Convento has more than 1,500 clients in 300 companies. Services include distribution, automatic processing of responses, implementation of campaigns, and integration of press clippings. Convento has generously supported this survey in Germany, Austria and Switzerland by inviting participants using their database. >> [www.convento.de](http://www.convento.de)
